Now cities are full of cars. Some families even have two or three cars. Parking is a great problem. Something will have to be done to change it. What will the cars of tomorrow be like? Small cars may take the place of today's big cars some day. If

everyone drives a small car in the future, there will be less pollution in the air. There will also be more space for parking cars in cities, and the streets will be less crowded.

A small car's size of tomorrow may be 1/3 of a today's usual car's size. The small cars will cost much less. Driving will be safe, too. Small cars of the future will be fine for going around a city, but they will not be useful for long trips. If big cars are still used along with the small ones, two sets of roads will be needed in the future.

Some roads will be used for the fast big cars, and other roads will be needed for the slow small ones.

1. In cities, _____ is a big problem for those people who have cars.
2. In the future, small cars will cost much _____.
3. A small car's size of tomorrow may be _____ of a today's usual car's size.
4. If people drive cars instead of the big ones, there will be less air pollution.
5. Two sets of roads will be built for the fast big cars and the _____ small ones.

二、阅读短文,根据短文内容选择正确的答案。(10分,每小题2分)
